**Bare Skin Barrier™**  
**The ONLY Fly & Insect Repellent on the Market Today**  
**With Organic Materials Review Institute (OMRI) Approval**  
**That does not contain Chemical Insecticides**

“In an attempt to find effective and non-toxic alternatives to fly control and related skin problems I founded Natures Balance Care in 1994” Missy Wryn states. “The Bare Skin Barrier™ was one of the first products I developed along with the OMRI approved Groomer and Barn Spray. I pursued OMRI approval when the Director for Sustainable Agriculture and Natural Resources of Washington State University approached me about a collaborative “green” farm for which WSU wanted to use my products. It was an arduous year and a half process obtaining the Organic Materials Review Institute approval, but well worth the time and testing”.

Natures Balance Care has the only fly and insect repellent on the market today that has OMRI approval without chemical insecticides or pesticides and is safe for lactating mares and livestock.

Bare Skin Barrier™
