NATURE'S BALANCE CARE® FINDS THE DEALER FOR DOG OWNER AFTER BUYING PRODUCTS AT A FLORIDA DOG SHOW

Nature's Balance Care® found the dealer Karen bought the Hot Spot Kit from, spoke to her over the phone and confirmed the dealer had just purchased the Insect Kit for Dogs so she is on her way to their doorstep to buy it too. See below Karen's fantastic experience with the Hot Spot Kit for Dogs which inspired her to buy more:

I bought your hot spot kit for my daughter's goldendoodle on Easter Sunday at a dog show. She had a hot spot on her flank, probably bigger than a half dollar. We had tried everything including preps and nothing worked. The skin was swollen, scabbed over and very angry around the whole area. It was driving the goldendoodle nuts as well as my daughter, trying to clear her up. We have used this product 3 times as today is only Tuesday. Amazing results!! Two tiny little bumps left (that you have to look hard to see), pink healthy skin..no scabs, almost totally gone!! I'm now searching to find the dealer that carries your insect kit for dogs. Just wanted to thank you for such a great product!
Karen B.

HEADLINES: Lawsuits against Pyrethrum, Pyrethrin & Pyrethroid product makers are spreading >>[more](#)

Visit www.NaturesBalanceCare.com for more information about the only organic approved OMRI listed products on the market today that do not contain Pyrethrum, Pyrethrin, Permethrin, Resmethrin, Rosemary or neuro-toxic ingredients.
