

# Give Us YOUR Best Shot!

The Hoof Beats Photo Contest is back in 2008.

**No entry fee.**  
Winning photos will be featured in *Hoof Beats*. The grand prize image will be placed on the cover.

## Three divisions to enter:

### OPEN

For those who receive MORE than half of their income from photos.

### AMATEUR

For those who receive LESS than half of their income from photos.

### PHOTO ILLUSTRATION

Open to amateurs and professionals.

A grand prize winner will be chosen from one of the first place division winners.

For complete rules, details and entry form please refer to the *Hoof Beats* Web site at: [www.hoofbeatsmagazine.com](http://www.hoofbeatsmagazine.com) or call 877.800.8782, ext. 2 for more information.

Entries must be received by Aug. 1, 2008.

### Address submission(s) to:

Hoof Beats Photo Contest  
750 Michigan Ave.  
Columbus OH 43215-1191

### • Bare Skin Barrier

Natures Balance Care has developed the Bare Skin Barrier, the only fly and insect repellent on the market that has Organic Materials Review Institute approval without chemical insecticides or pesticides, and is safe for lactating mares and livestock.

Bare Skin Barrier:

- Stops biting flies from chest to tail
- Protects open sores and wounds from fly and insect infestation while stimulating healing
- Stops mane and tail itch
- Safe for lactating mares and livestock

Information: [www.naturesbalancecare.com](http://www.naturesbalancecare.com).

### Anivac

Anivac is a two-in-one animal washing system and dry vacuum that allows the user to bathe their horse in half the time, save on water, and finish the task virtually mess-free. It takes less than two gallons of water to clean an average-sized horse. This is a 90-percent water savings from traditional bathing practices.

Anivac is designed to clean from the skin out, penetrating even the thickest animal coat with nozzles that direct cleansing fluid onto the skin. This method removes dirt and loose hair, leaving the coat with a natural shine. The Anivac Pure Oxygen Shampoo is non-irritating, non-toxic, environmentally safe and healthy for animals and grooms. The benefit of the added vacuum pulls away excess water and debris, leaving the coat only damp to the touch.
