Column:

Sounds Good

The following column ran in the Port Arthur (TX) News.

Picnic safe

I'm not suggesting you could use Nature's Balance Care Organic Insect Repellent instead of cologne, but I am drawn to the lemony fresh scent. It's strong, but it does put one in the mind of camping, hiking or enjoying a picnic in the back yard. It does not contain DEET, Resmethrin, Pyrethrum or neuro-toxicchemicals. Makers claim you can actually get refreshed soft skin from the lavender, geranium, lemongrass and other natural botanical ingredients. I'm ready for potato salad and kites. They also have stuff for horses and dogs.
