## ***“Face Formula”***

Specially Designed for the Sensitive Face of Horses, Livestock & Dogs  
From Natures Balance Care

The face of an animal is sensitive and can easily be injured by caustic or oily repellents. Natures Balance Care ***Face Formula*** is specially designed for the sensitive face of horses, livestock and dogs. Many livestock owners worry about the product being licked off by preening barn mates, but Natures Balance Care ***Face Formula*** is so safe it's edible! The Aloe Vera base with Jojoba and other natural edible ingredients creates a safe barrier from flies and insects while providing anti-fungal and anti-bacterial properties for those animals that are prone to fungal infections. Fly masks are always recommended when possible, but the ***Face Formula*** is effective for those times when a face mask isn't possible or the need for extra coverage is appropriate. The ***Face Formula*** is great for trail rides while protecting the eyes and nose from flies and mosquitoes.

To learn more about Natures Balance Care all natural, OMRI approved horse, barn and dog care products visit [www.NaturesBalanceCare.com](http://www.NaturesBalanceCare.com), or call for a FREE catalog 1-866-821-0374. Ask for Natures Balance Care products at your local feed, tack and pet stores.
