## Nature's Balance Care Doing It's Part to Stimulate the Economy By Rolling Back Prices to the 1990's – OVER 40% Price Slash

"Our horse and pet loving customer's and store owners alike are all sacrificing so much in today's economy that I asked my staff how and what can we do as a company to help people and to stimulate the economy?" Missy Wryn CEO asks. "My staff came together as a family and came up with a three pronged approach. First we negotiated discounts with our raw material suppliers; second we reduced our profit margins and third our staff agreed to freeze their wages for the next six months so we could slash our prices by over 40% to the customer and the retailer! Wow I was impressed and humbled by my staff's gracious sacrifice and thankful to our suppliers for agreeing to the discounts. We have rolled back prices to the 1990's so people can now better afford to continue supporting their horses, pets, and livestock with our organic approved insect control and skin care products and we even slashed the price of our Kid Safe Organic Insect Repellent so families can better afford to be safer without DEET or use of neuro-toxic chemicals".

Nature's Balance Care has been serving the organic community since 1994. You can count on Nature's Balance Care to provide you and your family safer organic products at fair and sustainable prices.
